

MERLINE PRINCY J

Trichy, Tamil Nadu, India | merlineprincy@gmail.com | +91 9994716339 | [Linkedin](#)

EDUCATION

SASTRA Deemed to be University | Thanjavur, India Oct 2022 – Jun 2027 (Expected)

M.Sc. Data Science (5 Years Integrated) | CGPA: 8.08/10

EXECUTIVE SUMMARY

MSc Data Science student with hands-on experience in data analysis, visualization, and machine learning through academic projects and internship exposure. Skilled in Python, SQL, Power BI, R, and statistical analysis with the ability to derive actionable insights from real-world datasets. Strong analytical thinking, problem-solving, and collaboration skills aligned with data-driven business environments. Eager to contribute technical and analytical expertise in a growth-oriented organization.

PROJECTS

Iris Flower Classification & Prediction System | [Github](#)

Tech Stack: Python, Pandas, NumPy, Scikit-learn, Streamlit

- Developed an end-to-end Machine Learning application to classify Iris flower species based on sepal and petal measurements.
- Performed data preprocessing, exploratory data analysis (EDA), outlier detection, feature scaling, and model evaluation.
- Compared multiple classification algorithms including SVM, KNN, Random Forest, Decision Tree, and Logistic Regression.
- Achieved 96.67% accuracy using the Support Vector Machine (SVM) model.
- Built and deployed an interactive Streamlit web application for real-time species prediction.
- Integrated model deployment using GitHub and Streamlit Community Cloud.

Social Media Analytics Using Python | [Github](#)

- Collected, cleaned, and analyzed social media data using Python-based analytics workflows.
- Performed Exploratory Data Analysis (EDA) to identify user engagement patterns, trends, and behavioral insights.
- Applied sentiment analysis techniques to evaluate public opinions from social media content.
- Created visualizations and analytical reports to communicate findings effectively.
- Utilized Python libraries including Pandas, NumPy, and Matplotlib for data processing and visualization.

Credit Delinquency Risk Analytics Dashboard | [Github](#)

Tech Stack: Power BI, Power Query, DAX, Data Visualization, Business Intelligence

- Developed an interactive Power BI dashboard to analyze customer credit risk, delinquency patterns, and payment behavior using financial and customer data.
- Performed data cleaning, transformation, and modeling using Power Query, including unpivoting monthly payment records for trend analysis.
- Created DAX measures and KPI cards to track delinquency rate, customer risk segments, credit scores, and loan performance.
- Designed multiple analytical dashboards covering executive overview, risk segmentation, payment behavior analysis, delinquency drivers, and geographic insights.
- Implemented interactive visualizations including funnel charts, scatter plots, treemaps, heatmaps, matrix reports, and slicers for dynamic exploration.

- Generated actionable business insights to support credit risk monitoring, customer segmentation, and delinquency management decisions.

WORK EXPERIENCE

Data Analyst Intern | Unified Mentor | Dec 2024 – Jan 2025

- Cleaned and preprocessed datasets using Python (Pandas, NumPy) for analysis.
- Performed Exploratory Data Analysis (EDA) to identify trends and business insights.
- Built interactive dashboards and visualizations using Power BI and Tableau.
- Applied statistical analysis and data modeling to support decision-making.
- Generated analytical reports with actionable recommendations.
- Collaborated on data analytics projects and delivered insights on time.

SKILLS

Technical Skills:

- Programming Languages: Python, R, SQL
- Data Analytics & Visualization: Power BI, Tableau, Excel
- Libraries & Tools: Pandas, NumPy, Scikit-learn
- AI/ML Technologies: Machine Learning, Artificial Intelligence
- Statistical & Business Analytics: Statistics, Data Analysis, Business Data Analytics

Soft Skills:

- Analytical Thinking
- Problem Solving
- Effective Communication
- Team Collaboration
- Time Management
- Adaptability
- Continuous Learning

ACHIEVEMENTS AND CERTIFICATIONS

- **Deloitte Data Analytics Job Simulation (Forage)** – Data Analysis & Forensic Technology.
- **Tata GenAI Powered Data Analytics Job Simulation (Forage)** – Risk Analytics, Delinquency Prediction & Data Storytelling.
- **Machine Learning Using Python (Simplilearn SkillUp)** – Predictive Modeling & Classification.
- **Data Labeling Job Simulation (Forage)** – Data Annotation & Quality Control.
- **Data Analyst Internship, Unified Mentor** – Data Preprocessing, Visualization & Business Analytics.
